## COF Mission

**Our mission:** The Canadian Orienteering Federation's mission is to provide and manage services and programs for the Canadian Orienteering community and to furnish opportunities for every individual to reach his or her potential at all levels of participation in orienteering.

We will achieve this through the following:

- Promoting and providing positive and diverse orienteering experiences through the delivery of comprehensive quality programs
- Promoting orienteering for education, personal development and environmental enthusiasts
- Directing High Performance programs in the pursuit of international excellence
- Guiding and/or partnering in the development of orienteering programs of a national scope at all levels

2. To increase number of participants in orienteering events.
3. To develop a progressive and organized plan at all levels for athletes, coaches and officials.
4. To increase organizational capacity through increasing the number of volunteers and to double the size of the annual budget.

## COF Values

Over the years certain values and characteristics have become associated with orienteering, a set of noble principles which the COF upholds:

1. EXCELLENCE - We believe in the right of all people to pursue their personal levels of excellence.
2. ENJOYMENT - We believe in the sport of orienteering being enjoyable.
3. FAIRNESS - We believe in fairness on and off the course, as characterized by equality, integrity and trust.
4. RESPECT - We believe in free and open communication and respect for the views, roles and contribution of all.
5. LEADERSHIP - We believe that those who participate in orienteering have a responsibility to teach and apply the values of the COF, involving others in the orienteering experience and inspiring and empowering them to reach their potential.
6. INCLUSIVENESS - We believe that orienteering should encourage the participation of all segments of the community.
7. ENVIRONMENTAL STEWARDSHIP – We believe that everything we do in orienteering will be done with a conscious effort to minimize our impact on the environment. This will apply not only at events to preserve the natural environment and make future land access more likely, but will also be a factor in the design of our competitive program and in all other activities.
