Motions

1. A motion submitted by the COF board to move the headquarters of the Canadian Orienteering Federation from Dorval, Quebec to Calgary, Alberta was proposed by John Rance and seconded by Don Riddle. Carried unanimously.
2. A request from OOA to increase insurance coverage from \$2,000,000 to \$5,000,000. This is to accommodate requests from land owners. Dave Graupner presented a summary, and a general discussion followed, including the use of waivers, the different types of orienteering, liability of board members, and degree of injuries likely to be sustained. The conclusion was that this will become an action item for the COF board, and the general feeling was to raise it to \$5,000,000.

AGM 2009 – Motion 3

Move that the COF supports the position of National Team Leaders, Junior and Senior, by providing financial support for air travel, registration fees, accommodation/meals and other WOC/JWOC expenses to a maximum of \$2000. Discussion: This principle is fully supported by the membership and the COF Board. Some provincial associations/clubs are willing to donate money for this purpose. More HPP funding has been allocated to team leader funding in recent years. Still more funding is required. Needs to be determined in the context of the COF and HPP budgeting processes.

AGM 2007 – Motion 4

That the COF recognize two grades of members within Provincial/Territorial Associations, Annual and Casual. Provincial/Territorial orienteeing associations continue to define their own membership classes but they must fit within one of these grades. An Association Annual member is a member of a Provincial/Territorial Association who pays an annual subscription, whether it is based on a calendar year or a twelve month period from the date of joining. Anybody awarded a Life membership by a club/association is also treated as an annual member. An Association Casual member is any member of a Provincial/Territorial Association who is not an Annual member. The grades would be used when discussing affiliation fees, insurance premiums and eligibility for participation in National Championships.

Moved by the COF Board of Directors.

CARRIED

AGM 2007 – Motion 5

That the COF Affiliation fees should be based entirely on participation. One person per event of orienteeing at an assessable event represents one participation unit. Wayfaring groups shall count as a single unit. An assessable event is any orienteeing event organized by the Association or one of its clubs for which an entry fee is collected but excluding: a) COC, NAOC and WMOC related events where a special levy is applied by COF; and b) Private events put on for other organizations, schools, companies, corporations etc. If there are two or more events on a single day each event will be counted separately.

Discussion: Make sense to implement this in 2008. COF Board will sort out the logistics.

TO: Winners of Canadian Orienteering Championship awards shall be only those who are full members of provincial associations and who are:

- a) Canadian citizens or,
- b) Permanent Resident card holders

Motion 6

Moved by: Andree Powers
Seconded by: Jonathon Winn

We move that the COF adopt single day championships for the Canadian Championships for the M20-34 and W 20-34 categories (elite classes) in the same disciplines as the International Orienteering Federation Championship standards.

The only changes that need to be made to the current typical Canadian Championship is to hold a sprint distance event and change the current 2 day classic to a middle distance using the same venue as the normal two-day total time event. The sprint event can be a new event or use the map and terrain of the current short distance event.

The 2005 Canadian Championship organizers may opt not to organize single day championships given the short notice such that this motion shall be considered a rule starting in 2006. However, we hope they will offer different course lengths for the two day classic to fall in line with the IOF middle and long distance events for the elite classes.

If this issue boils down to the cost of having an extra set of medals for these events then we will accept a slight increase in the meet fees for the elite classes to cover these extra medals.

Motion 7

Moved by: Alex Kerr

That the organizers of the 2005 Canadian Orienteering championships be allowed to revert to the age group format of 2 years for juniors up to M/W 19-20 and 5 year age groups for M/W35 and above.

5. Board Reports

- a) Executive Director's Report - C. Kirk (AGM book).
 - b) National Team report - Mike Smith, commented on the HPP program.
 - athlete's are most appreciative of the financial support received from fundraising efforts by clubs/associations and member donations.
 - national team consists primarily of Maritime based athletes - little representation from Central and Western Canada.
 - Performance. No real improvement objectives established. Athletes do their best but losing ground to larger better financed nations.
 - c) High Performance Program (HPP) - C. Fox (AGM book)
- C. Fox commented on three items in his report

- Fundraising - Stig Skarborn tried hard - little results. Provincial fundraisers - these annual events generated considerable revenues and are the prime source of fundraising income.

- HPP - manual developed. Will be reviewed/updated annually. Senior and Junior tiers established. Performance criteria for seniors to be reviewed. Seniors selected to tiers based upon performance in specified events. No performance criteria established for Juniors. Juniors are selected based upon results and recommendations from provincial associations.

- Training Plans & Camps. Athlete training plans to be submitted to HPP committee member, Ross Burnett, for review/comment. High level training camps with top level coaches planned in conjunction with APOC 2002. Meeting with HPP members scheduled during current COC.

d) Standards Committee - Officials Certification - J Forsyth. Working document with changes to Level 1 and Level 2 Practicum requirements (AGM book). It was noted that Level 1 Practicum states "Meet Director or Planner" and Meet Director requirement has been dropped for Level 2, making it possible to obtain certification without serving as a Meet Director at any level. Level 1 and Level 2 practical should be reviewed to remedy this situation.

AGM 2001 - 6. Whereas the importance of athlete development is recognized, all provincial/territorial associations hold at least one event annually in which the proceeds are contributed to the High Performance Program fund.

CARRIED

AGM 2001 - 7. Whereas National Team support is contained within the High Performance Program and whereas it has not been the practice of all provincial/territorial associations to hold annual events to contribute to the National Team Fund, the requirement is removed for each association to have an annual National Team fund-raising event.

CARRIED

AGM 2001 - 8. Whereas it is increasingly difficult to update returnable trophies and whereas the organizers have no way of controlling trophies being brought back from previous winners and whereas many of the trophies get scratched or are in non-presentable state, be it resolved that COF discontinue the presentation of returnable trophies or plaques at Canadian Championships. CARRIED - 1 abstention

AGM 2001 - 9. Affiliation Fee Sharing: To more accurately reflect the current state of orienteering in Canada it is moved that the Annual Affiliation Fee be changed from the present formula based entirely upon the number of Full Members to a formula whereby 50% is obtained from Full Membership Fees and 50% from Participation Levies.

CARRIED

AGM 2001 - 10. Full Member Fees: The total number of Full members reported by associations as of December 31 each year shall be divided into the value represented by 50% of the Association Affiliation quantity of the COF Budget approved at the COF Annual General Meeting. This calculation will determine the Per Member Fee (PMF).

$$\text{PMF} \times \text{Number of Full COF members reported by associations} = \text{Membership Fee portion of Association Affiliation.}$$

CARRIED

AGM 2001 - 11 Participation Days. The total number of participation days of qualifying events held within each Association's jurisdiction shall be used to calculate Participation Levies. Amendment: line 2. "within each Association's jurisdiction" changed to "by each Association"

AGM 2001 - 12. Trial Period: To provide an opportunity for all parties to become familiar with a participation based levy system, it is moved that there be a one year trial period before adopting the new Affiliation Fee system. During the trial period the previous Full Membership only system will be used to determine Affiliation Fees. However data will be gathered and values calculated as if the new system were in effect. The new system shall become effective the following calendar year.

CARRIED

AGM 2001 - 13: Tier Based System: Participation levies will be based on the participation tier for each Association. There will be seven participation tiers:

0 – 350
351 – 500
501 – 750
750 – 1000
1001 – 2000
2001 – 3000
3000+

The tier membership value is determined by the following procedure:

1. Determine 50% of total of all affiliation fees. Call that PSUM
2. Divide PSUM by total participation orienteering days. Call that PRATE.
3. Multiply PRATE by the midpoint of each tier to get the tier levies. For the lowest tier, the tier levy is 0. For the highest tier, beyond 3000, use 3500 as the midpoint.

The COF Board will assign Associations to the appropriate Tiers based upon data supplied by the Associations or in the absence of data, by the COF Board's best estimation. The COF will base its calculations on reported meet results. If an Association disagrees with the estimate of the Board and can provide the data needed to demonstrate a change in Tier, it may appeal to the Board for an adjustment of the levy.

DEFEATED: 7 opposed - 3 abstentions

AGM 2001 - 14. Flat Rate Levies : Participation levies will be determined by multiplying the participation rate, PRATE, by the participation orienteering days for each association. The value of PRATE is determined by the following procedure: 1. Determine 50% of total of

all affiliation fees. Call that PSUM. 2. Divide PSUM by total participation orienteering days. Call that PRATE.

The number of participation orienteering days for each association will be provided by each association or, in the absence of data, by the COF Board's best estimation. The COF will base its calculations on reported meet results. If an Association disagrees with the estimate of the board and can provide the data needed to demonstrate a change, it may appeal to the Board for an adjustment of the levy.

1996 ANNUAL GENERAL MEETING

Motions - AGM 1996

AGM96-7 H. Nothof/N. Prime "The new Board establish Search and Rescue Technique procedures"

CARRIED

1998 COC/NAOC Report. OABC have not paid 1996 Affiliation Fees and other amounts, eg. 1995 Sage Stomp levies. As such OABC are not 'members in good standing'. It is agreed OABC must pay the Affiliation Fees and outstanding invoices.

Discussion on Sage Stomp levies:

- The Sage Stomp was advertised as part of Canada '95 events.
- OABC gained by holding meet in conjunction with Canada '95.
- Entry Fees raised to \$15 and returned to \$10 in 1996. Fee increase more than covered COF levy of 25%
- OABC delegates were in attendance at 1992 and 1994 AGM's when 25% levy on COC related events was adopted.
- R. St-Laurent. Perhaps the COF Ombudsman can be of assistance in resolving the matter.

AGM95-20 Discussion merits of the AGM during COC week or in late Fall (Oct/Nov).

It had been anticipated more members would attend if the AGM was held at the COC. A few members attended the 1994 AGM but none attended the 1995 AGM.

With many activities during the COC the AGM gets lost. Association presidents and COF directors are often involved in the organization of the COC and unable to attend the AGM.

Advantage of the AGM at the COC is the cost savings.

General opinion is that having the AGM during the COC week detracts from the meeting. Having the AGM during the "off-season" provides a much better business/working environment.

AGM95-20: S. Friesen/R. St-Laurent: The 1996 AGM be held in Toronto in November, 1996.
